

## Kerfkore Panels - Foamkore

**Product #** FK75HB08

### DESCRIPTION

Foamkore is a structural lightweight composite panel used where weight reduction is desired. Its balanced panel construction provides stability without unnecessary weight.

### ADVANTAGES AND BENEFITS

- Consists of a polystyrene foam core and thin, rigid face materials.
- 80% reduced weight compared to conventional panels in plywood, particleboard, and MDF.
- Reduced weight allows these panels to be safely used in areas where traditional panels could cause problems.
- Other size and face options are available upon request (special order).

### TECHNICAL SPECIFICATIONS

<b>Product #</b>	FK75HB08
<b>Thickness</b>	3/4 in
<b>Width</b>	48 in
<b>Length</b>	96 in
<b>Finish</b>	Natural
<b>Material</b>	Polystyrene Foam
<b>Color Group</b>	Natural
<b>Collection</b>	Foamkore

### APPLICATION

The rigid face materials let you use standard attachment methods. Glue, staples, nails, screws, and similar fasteners allow the panel to be physically and structurally attached to other materials.

### IMPORTANT INFORMATION

The core material in this product: - Is an extruded polystyrene foam (XPS) that will provide a consistent and uniform surface to machine  
- Contains no added formaldehyde and has a Class A fire rating
