**Potential Health Effects**

**Principal Routes of Exposure**  
Inhalation, skin absorption, eye contact

**Acute Effects**

**Eyes:** Contact with eyes may cause irritation. Direct contact with liquid or vapors may cause stinging, tearing, redness, swelling, and eye damage.

**Skin:** May cause skin irritation and/or dermatitis. Prolonged or repeated contact or exposure to vapors may cause redness, burning, and drying and cracking of the skin.

**Inhalation:** Breathing high concentrations of vapors may cause irritation of the nose and throat or signs of nervous system depression (i.e. — headache, nausea, drowsiness, dizziness, vomiting, loss of coordination and fatigue).

**Ingestion:** Ingestion may cause irritation of the digestive tract, nausea, vomiting, and signs of nervous system depression.

**Chronic Effects**  
Avoid repeated exposure. May cause blood damage. Repeated contact may cause allergic reactions in very susceptible persons.

**Aggravated Medical Conditions**  
Pre-existing eye, skin, or respiratory disorders may be aggravated by exposure to this product.

### SECTION 4: FIRST AID MEASURES

**General Advice**  
Show this safety data sheet to the doctor in attendance

**Eyes:** Flush with plenty of cool water for at least 15 minutes, holding eyelids apart for thorough irrigation. If irritation persists, get immediate medical attention.

**Skin:** Wash affected area thoroughly with soap and water. Remove contaminated clothing and wash affected areas thoroughly with mild soap. If skin irritation persists, get immediate medical attention.

**Inhalation:** Move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen and get immediate medical attention.

**Ingestion:** Do not induce vomiting – seek immediate medical attention. If vomiting occurs, keep head lower than hips to prevent aspiration.

**Notes to Physician**  
Treat symptomatically

---

### SECTION 5: FIRE FIGHTING MEASURES

**Extinguishing Media:** Carbon dioxide, dry chemicals, foam. Water may be helpful in keeping adjacent containers cool; avoid spreading the liquid with water used for cooling. Water-based sprinkler systems may help contain larger fires.

**Specific Hazards arising from the Chemical**  
Closed containers may rupture if exposed to fire or extreme heat. May produce toxic fumes if burning.
Special protective Equipment: 
Wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

SECTION 6 : ACCIDENTAL RELEASE MEASURES

Personal Precautions: Use personal protective equipment. Remove all sources of ignition.

Environmental Precautions 
Prevent further leakage or spillage if safe to do so. Do not allow material to contaminate ground water system. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. Local authorities should be advised if significant spillages cannot be contained.

Methods for Clean-up 
Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. Clean contaminated surface thoroughly.

Other Information None known

SECTION 7 : HANDLING & STORAGE

Handling: Use only in area provided with appropriate exhaust ventilation. Do not breathe vapors or spray mist. Wear appropriate personal protective equipment. Take precautionary measures against static discharges. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Keep away from open flames, hot surfaces and sources of ignition.

Storage: Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from extremes of heat or cold. Keep in properly labeled containers.
