UNIKA USB LED

Stylish design, lighting, and charging solution within arm's reach

Combining a minimal look with advanced functions in a solution that offers two configurations: Unika LED light and Unika LED light with double rapid-charge USB sockets. All this is contained in a tilted cylindrical body with a simple design, perfect for installing on back walls under cabinets or above shelves. Ideal for the hospitality industry.

UNIKA USB LED

ADVANTAGES AND BENEFITS

- Available in two configurations: Unika LED light and Unika USB spotlight LED light
- Multi-functional single light source
- Peripheral light source integrated in a 15° tilted support
- Installing the device under the cabinets near the back wall makes it possible to conceal the cables at the rear and simplify the connection to the power supply
- Configure with a LED switch for on/off and dimming
- Unika USB LED integrates a double rapid-charge USB socket for easy charging of smartphones or other devices
- Multiple lighting temperature ranges available from super warm to neutral white
- Matching style with silicone solutions: FlexyLED AT6, SEH4, and Holl

UNIKA LED LIGHT & USB PORT

UNIKA LED LIGHT

Unika is a LED with a perimeter light source integrated into a holder inclined at 15°, installed under the kitchen wall unit close to the wall.

- Tension: 24 V dc
- Mounting: surface
- Pre-wired 78 3/4" (2 m) power cable
- Color Rendering Index: (sw, ww) CRI 82, (nw) CRI 83
- Luminous flux: (sw/ww) 370, (nw) 405 lm
- Luminous efficiency: (sw/ww) 82, (nw) 90 lm/W

UNIKA USB LED LIGHT

Unika USB is a LED featuring double USB sockets with a perimeter light source integrated into a holder inclined at 15°, installed under the kitchen wall unit close to the wall.

- Tension: 24 V dc
- Mounting: surface
- Pre-wired 78 3/4" (2 m) power cable
- The Unika USB light source has 4.5 W power consumption, while the maximum load connected to the USB sockets shall not exceed 20 W
- Use power supplies with maximum load suited to the total power consumption to feed this LED
- Color Rendering Index: (sw, ww) CRI 82, (nw) CRI 83
- Luminous flux: (sw/ww) 370, (nw) 405 lm
- Luminous efficiency: (sw/ww) 82, (nw) 90 lm/W
