**Additional Information**

- Unit may be surface mounted (unit extends approximately 7 3/4" into room) or recessed (unit extends approximately 3 7/8" into room) into any wall with standard 16" center studs.
- See table bottom right to determine desired ironing board height above the floor. The user can adjust height of board after installation with a 4” differential between a maximum and minimum height.
- Unit can be provided with a left hinged door upon request. Right hinge is standard.
- Comes standard with wood veneer door.
- Electrical requirements: 115/120v, 15 amp. Pigtailed are provided in bottom of wire raceway for hookup to supply line. Make entrance into knockout provided in top of wire way through left-hand vent hole.
- Recommended to attach 2" x 4" cleats to studs, level with the bottom of opening (for support when recessing unit.)
- Door opens approximately 180°. Allow at least 16" to the side of the unit for door to swing open (door hinges on full length piano hinge.)
- Options include: Surface mount trim (necessary for surface mounting), oak, maple, pine, or white raised panel door, flat white door, glass mirrored door, or no door, rough-in kit, and iron.

Additional Information

Measurements when board is lowered
(Not to Scale)

Unit can be provided with a left hinged door upon request. Right hinge is standard.
Door opens approximately 180°. Allow at least 16” from side of cabinet.
Board can be turned left or right 90° in either direction until parallel with the wall.
Additionally, there are conveniently placed stopping points as the board is being turned.

Recommended Adequate Space/Clearance for Ironing

Distance from Wall to tip of Ironing Board 46 7/8”
Swivel Clearance from cutout opening of cabinet 14 5/8”
Distance from Wall in Full Swivel Position 32 7/8”
Standing Area Clearance ** 24”

** The recommended distance from the side of the ironing board where the user will typically stand to ensure adequate space for ironing.
