GLAKS

Super resistant acrylic with glass-like transparency

The **GLAKS** Collection is composed of 100% pure acrylic panels and sheets to which we've added real glass dust. Therefore, the material is light and extremely sturdy, as luminous as glass.

Residential and commercial applications:

- Doors and drawer fronts
- Counters, tables and desks
- Racks and shelves
- Furniture sides
- Dividers and partitions
- Store furniture
- Wall panels

Advantages

- Extremely heavy-duty, highly resistant to shocks and scratches
- Resistant to water, stains and chemicals
- Resistant to UV rays and discolouration
- Easy maintenance
- Heat-resistant up to 194°F/90°C
- Non-toxic and eco-friendly: VOC-Free
- Sanitary and designed for being in contact with food

Note: The GLAKS material cannot be repolished because of the glass dust embedded in the acrylic.

GLAKS

Panels | MDF Core (CARB2), GLAKS front side, ACRYLIC back side (super matte Harmony) | 18 mm thick in total

Sheets | ACRYLIC | 2 mm thick (ultra gloss) or 3 mm thick (super matte)
