

Laminate Seam Roller - 2 in

Product # 00041

DESCRIPTION

Seam roller for laminate with a ball bearing system.

Width: 2 in
Length: 9 in

This steel roller applies leveling pressure to decorative laminate seams so that edges are pressed firmly into place. Features a hardwood handle and ball bearing system.

ADVANTAGES AND BENEFITS

- These rollers help ensure proper adhesion, reduce air bubbles, and improve the overall quality of the installation - Laminate rollers help achieve a smooth and flat surface by ensuring that the laminate material is pressed evenly and firmly against the substrate

TECHNICAL SPECIFICATIONS
