

Mitre-Pro Activator

Product # 099606A

DESCRIPTION

Mitre Pro Adhesive is a high-viscosity adhesive system for bonding where large gap fill is important or where materials are absorbent. This versatile system will bond most woods, plastics, rubbers and metals.

ADVANTAGES AND BENEFITS

Because of its viscosity, Mitre-Pro Adhesive allows additional bonding time prior to curing when used without activator. When used with Mitre-Pro activator, the cure speed is significantly increased without affecting bond strength.

TECHNICAL SPECIFICATIONS

Product #	099606A
Base	Solvent
Finish/Color	Clear Transparent
Packaging Specifications	Canister
Features	Flammable
Size	6.76 oz*
Application Color	Clear
Material	Butane, Isobutane

Disclaimer

Measures shown with an asterisk (*) have been converted as per your preference. These are not the official measures. To view the measures specified by the manufacturer, [click here](#).

APPLICATION

Cure speed with activator: 5-20 seconds, depending on substrate and conditions. Cure speed without activator: 25-60 seconds, depending on substrate and conditions. Operating temperature: -50 °C to 80 °C. Full cure time: 24 hours at 20 °C.

IMPORTANT INFORMATION

The activator does not impact PVC plastics
