

Type D Nut

Product # 0D0107M2G

Bolt Diameter/Size M6

Length 1/2 in*

Pre-Drilling 11/32 to 11/32 in*

Packaging format Per unit

DESCRIPTION

Press-in

Get strong, dependable holding power with these Type D insert nuts. Ideal for use in furniture assembly, the nuts are made of die cast zinc alloy .

ADVANTAGES AND BENEFITS

They feature an incorporated flange that helps prevent splitting and overdriving in wood and wood-based materials. The self-tapping thread helps ease installation and offers strong resistance to pull-out caused by vibrations.

TECHNICAL SPECIFICATIONS
