

OVVO 1240 Connection System Starter Pack

Product # 1240SMSPSET

DESCRIPTION

This connector set comprises both OVVO 1240 Permanent and Dismountable Connectors.

Both connectors are small yet strong and work best in board thickness of 20 mm and above. They work in a wide range of materials.

The permanent connector enables panels to be simply snapped together while the dismountable allows for a snap or slide to connect and slide to release.

ADVANTAGES AND BENEFITS

- Compatible with existing panel manufacturing machines - No need for tools, glue or screws - Easy assembly - Can be installed in a wide range of materials such as composite, plywood, chipboard and high-pressure laminate (HPL)

TECHNICAL SPECIFICATIONS

Product #	1240SMSPSET
Brand	OVVO
Insertion Type	Permanent, Dismountable
Panel Thickness	Min. 25/32 in*
