Disclaimer

Measures shown with an asterisk (*) have been converted as per your preference. These are not the official measures. To view the measures specified by the manufacturer, [click here](#).

APPLICATION

For maximum loading capacity, hooks should be mounted directly to wall studs, which are generally found at 16" intervals. If hooks are not mounted to studs, use appropriate dry-wall anchors (not included with hooks). Hooks come with plastic anchors that may not adhere to all type of walls. The installer is responsible for ensuring that appropriate anchors are used.

DISCLAIMER

Although our black finish is achieved through a rigorous process, it may show signs of normal usage faster than other finishes.
