

CONNECT 2.0 Drawer Organization Sets

Product # 229921910

Set Name SET D

Product Dimensions - Width 15 3/4 in*

Product Dimensions - Depth 17 3/4 in*

DESCRIPTION

Modular system for utensil drawer organization

CONNECT 2.0 is a drawer-organizing solution designed for 500 and 550 NL metal drawers of all widths.

Choose one set or combine multiple sets to build the perfect drawer divider configuration for your drawer width.

See Product Datasheet below for many drawer configuration suggestions.

These sets will also work with wood drawers but you may need to trim the depth of the SET A component for a perfect fit.

SET C and SET D are best used in combination with SET A or SET B. See Product Datasheet for more details.

ADVANTAGES AND BENEFITS

Mainly designed for metallic drawers with a length of 500 mm to 550 mm (OPTIMIZ-R, 908, Legrabox, Antaro, or equivalent). For metallic drawers with an interior depth of 474 mm or 524 mm, the sets can be installed without any cutting. The #299156910 protection mat (sold separately) can be cut to your desired dimensions. Made of a rigid material and easy to cut, this mat will protect the interior of the drawer and will also allow for easy cleaning. Deco interior mats are available in seven different finishes for interesting options. The L and E shaped components can be installed in a modular manner to personalize storage space according to your needs. The sets can be combined, without any limit or maximum drawer width. The linear design (slim side inserts) and the dark gray color are right on trend.

TECHNICAL SPECIFICATIONS

Product #	229921910
Finish	Dark Gray
Interior Dimensions Required - Height	Min. 2 3/8 in*
Product Dimensions - Height	2 5/32 in*
Area of Activity	Preparation
