

Surface Curved Aluminum Profile with Lens

Product # 30141690

DESCRIPTION

Made in North America

Specially designed to hide brackets and wires.
Widely used for under cabinet lighting.
A very aesthetic look with its curved appearance.
Optimize the lighting of the items on your shelves and racks with this versatile profile.

Aluminum profile solutions are in great demand as they give our customers the ability to customize their designs like never before.

ADVANTAGES AND BENEFITS

Richelieu's new aluminum SURFACE CURVED profile solution fits tape light and tape light rolls. Included opal lens creates the no dot effect and gives a uniform look to the added lighting with no hot spots. Designed for installation under cabinets or inside furniture. Customize your lengths as needed profiles can be cut easily with a miter saw. Opal lens was specifically chosen to offer a nice level of light to light up cabinets without the dot effect. The denser the lens, the less light that can pass through it. For example, a clear lens will offer 96.5% translucency with only 20% diffusion (clear meaning the lens is clean and the tape light is visible) while the opal lens offers 65% translucency with 100% diffusion. Opal lens efficacy is 50% of the originally emitted light source.

REQUIRED PRODUCTS

Requires the following products

Sales unit

Clips for Surface Mounting
Product # 30141280

Bag

TECHNICAL SPECIFICATIONS

Product #	30141690
Mounting	Surface
Luminaire	Rigid Linear
Location	Closet, Furniture
Application	Kitchen, Bedroom, Office, Commercial, Closet
Lighting	Ambience, Accent, Task, Functional
Height	5/8 in*
Finish	Aluminum
Material	Plastic, Aluminum
Function	Aluminum Profile
Price Point	Optimum
