DESCRIPTION

A top-mounted recycling center designed for frameless cabinets. Compact SHORT design allows for easier installation in cabinets with reduced space or obstructions at the top or rear of the cabinet. For installation in a kitchen base cabinet. Can be installed below a drawer and under some sinks.

ADVANTAGES AND BENEFITS

- Equipped with synchronized undermount slides for smooth operation
- Over-travel slides allow for easy removal of the bins
- Integrated soft close mechanism
- Weight capacity of 50 kg
- Tested up to 100,000 opening and closing cycles
- Each bin has integrated handles for easy maneuverability
- Fixed lid inside cabinet automatically covers bins when door closes and doubles as a shelf for extra storage
- Easy 3-way

door adjustment for the perfect fit - Inside lid is retractable (on model 360860905 only)
