

## Libero 3.0 Smart Door Opening System

**Product #** 36973100

### DESCRIPTION

Libero 3.0 is a SMART hands-free electronic cabinet door opener. Compatible with our popular side-mounted waste management systems like SE and Euro Cargos. Integrated LED light indicates the laser-sensor position in the plinth area. Simply lift your foot toward the light and the door or drawer will fully open. Device can also be voice activated (compatible with AMAZON'S ALEXA only).

It has never been easier to dispose of waste!

### ADVANTAGES AND BENEFITS

- For lower cabinets from 12 in (300 mm) to 24 in (600 mm) wide equipped with top-mount hang-through waste bins such as Eurocargo and SE-cargo (series 3614, 4614, and 4719) - Mounts in the bottom-front section of the lower cabinet (not adapted for framed cabinets) - Can be retrofitted - Easy opening by foot-activated laser-sensor or (optionally) by voice activation through SMART HOME (Alexa) - No unintended opening - Low voltage device, 5 V, 2 A input, with USB-C socket - Power supplied by electrical driver for 110 V to 230 V outlets, with 78 3/4 in (2 m) USB-C/USB cable and international adapters (all included in the set) - Integrated LED lighting used for localisation may be dimmed or switched off using online settings - Door opening strength and laser sensitivity can also be adjusted using online settings - Intelligent control identifies obstacles thanks to a friction clutch system - Splash water-proof according to IP 21 certification - UL and CSA certified - Extension will vary depending on weight of contents and width of cabinet - Can be used with most common bottom drawers but should not be used for applications exceeding 88 lb (40 kg) or a 36 in (900 mm) wide cabinet

### TECHNICAL SPECIFICATIONS
