

3832EC - Full Extension Ball Bearing Slide - 45 kg (100 lb) Capacity

Product # 3832EC2G20

Length 20 in

DESCRIPTION

With an automatic reset stroke of 1.75 in, the 3832EC model brings drawers to a controlled and satisfying close every single time. Add a bit of much-needed ease to hardware in the home, industrial workspaces, or institutional equipment.

- Supports loads of up to 100 lbs
- For drawers up to 16 in wide
- For additional technical information see below

Engineered with the end-user in mind, the 3832EC's Easy-Close mechanism remains partially shielded to prevent small debris particles from interfering with operation, optimizing it for long-term, maintenance-free use. This specialty motion hardware ensures that the drawer doesn't pull out of the opener's hand and re-close.

ADVANTAGES AND BENEFITS

- The partially shielded mechanism blocks out unwanted debris such as dust or finishing materials.
- Balanced pull-force: engineered to provide a balance between closing and opening actions, this drawer is less likely to pull out of the user's hand and re-close accidentally.
- Lever disconnect for easy drawer removal and reinsertion.
- New 3832EC slide with a soft-close feature.
- 100 lb (45 kg) load capacity.
- Full extension for complete access.
- Easy-close mechanism featuring an automatic reset; mechanism stroke is about 1.75 in
- Cam drawer adjustment feature included

TECHNICAL SPECIFICATIONS

Product #	3832EC2G20
Load Capacity	99.2 lb*
Motion Technology	Soft-Close
Series	3832
Slide Extension	Full Extension
Slide Mounted	Side Mounted
Bearing Type	Ball Bearing
Features	Bulk Pack
For drawer of	Max. 24 in
Finish	Zinc
Screw/Nail	Not Included
Side	Both
Standards and Certifications	RoHS
Brand	Accuride

Disclaimer

Measures shown with an asterisk (*) have been converted as per your preference. These are not the official measures. To view the measures specified by the manufacturer, [click here](#).

APPLICATION

- In commercial or institutional settings: well-suited for cabinetry and casework found in libraries, school rooms, laboratories or hospitals, and high-end retail stores. - In residential applications: quiet performance is valued in nearly every part of the home, especially in a child's room or baby's nursery

IMPORTANT INFORMATION

Not suitable for drawers exceeding 26" in width. In this case, use slides from the T9301 family.
