

Piano Hinge - Width: 40 mm

Product # 4025180

Color/Finish Nickel

Length 82 ft*

Center to Center Drilling 2 3/8 in*

Packaging format Per unit

DESCRIPTION

Piano hinges, or continuous hinges, found their name from their original purpose, piano lids. They are now used in various everyday wood and metal made utilities like chests, foldable doors, trunks, safes or in more heavy-duty utilities like shed/barn doors or fire doors. This type of hinge is made with only 3 three components, which makes it simple to use and install. The load capacity of this type of hinge is unfortunately very difficult to calculate and is mostly dictated by the material used, the thickness of the hinge and the pin diameter. On the other hand they can meet the most demanding needs if chosen carefully.

Piano hinges are a very strong and cost effective way to conduct your different type of project. They can meet the most demanding needs if chosen carefully.

- Made in Canada

TECHNICAL SPECIFICATIONS

Product #	4025180
Material	Steel
Width	1 9/16 in*
Thickness	1/32 in*
Pin	Fixed Pin
Type	With Holes
Fastener	#5 Screw
