

## OPLA-TOP Table Extension Mechanism

**Product #** 4117171010

### DESCRIPTION

Side table that expands counter top work space

### ADVANTAGES AND BENEFITS

Optimizes workspace in a small kitchen. Hidden in a cabinet when not in use (takes the space normally used by a drawer). Designed to be installed in a cabinet with an exterior width of 450 mm to 900 mm (17-3/4" to 35-7/16"). The top panel of the table must be made by the client. Color: aluminum.

## APPLICATION

Complete system, only the top panel must be made by the client, which enables harmonization with the counter. Once the mechanism is folded out, the panel adjusts to the same height as the counter. Aluminum rail with high-load capacity of 40 kg (88 lb), evenly distributed. Can be installed in place of a drawer, behind the hinged front panel that tilts towards the back enabling the table to slide out of the cabinet. Because it does not have a front bar, it is convenient for all sizes from 450 mm to 900 mm (17-3/4" to 35-7/16"). Approximate total extension of the table: 500 mm (19-11/16").
