

## PEANUT® 1

**Product #** 422501M190

**Finish** Black

**Packaging format** Box of 1000

### DESCRIPTION

#### The ultimate nesting solution

The PEANUT® 1 is made of strong reinforced plastic and has rows of teeth around the body to provide high gripping strength when inserted. The body shape is designed for fast machining, requiring only a 25mm and a 5mm drill bit to create the recess for the connector.

The PEANUT® 1 connector is designed for manufacturers who have three-axis CNC nesting machines.

Once inserted, all panels made with PEANUT® components can be packed flat and, depending on the tightness of the joint, can be assembled with no tools.

### ADVANTAGES AND BENEFITS

- A self-clamping, single component connector - Requires just one CNC machining process - Creates an incredibly strong joint - Quick and simple assembly of cabinets

## REQUIRED PRODUCTS

Requires the following products

**Drill Bits for PEANUT®**

AND

**High Performance PEANUT® 1 Drill**

## TECHNICAL SPECIFICATIONS

Product #	422501M190
Material	Glass Fiber Reinforced Nylon
Function	Assembly
Brand	Peanut
Insertion Type	Dismountable
Panel Thickness	Min. 19/32 in*

### Disclaimer

Measures shown with an asterisk (\*) have been converted as per your preference. These are not the official measures. To view the measures specified by the manufacturer, [click here](#).

## IMPORTANT INFORMATION

Compatible with hardwood, softwood, plywood, MDF and MFC.

## DISCLAIMER

A 24.9mm drill bit (Richelieu Part Number PD2517290) is optimum for the PEANUT®1. However, any 25mm drill bit can also be used (25mm is the maximum).
