Feature Two USB 3.0 Ports

Type Single Arm

Tilt 10° to -10°

Height - Overall Dimensions 10 to 23.4 in

Depth - Overall Dimensions 8.1 in

DESCRIPTION

The most versatile monitor arm solution for your needs

- The Flexa Pro single and dual monitor arms are a high-end floating monitor arm solution, ideal for both office and home use.
- This heavy-duty aluminum gas spring monitor arm fits monitors from 17 in (431.8 mm) to 32 in (812.8 mm) and holds up to 17.6 lb (8 kg) per screen.
- Its easy-grip handle can position two monitors at the same time with ease--just pull up and down.
- Larger screens mean more risk, so we set an additional screw behind the arm to prevent any faulty operation when extending the arm past the rear edge of the desk.
- With its 3.0 USB ports on its sturdy base, data transmission, charging, and headset use have never been so convenient.
- Monitor mount swivel left to right: 90° to -90°

ADVANTAGES AND BENEFITS

- Space-saving design to free up and gain additional desktop workspace
- Tilts up and down
- Freely adjusting height for an optimal ergonomic position
- Free-tilting design for multiple monitor viewing angles
- Detachable VESA plate design enables easy installation
- Built-in cable management for an organized and neat workspace
- VESA compatible: 75 x 75, 100 x 100
