

Adjustable Spring Hinge

Product # 542R30

Position Right

DESCRIPTION

Adjustable hinges offer two variable opening angles - 75° to 90°. These hinges are designed for installation on wooden doors and feature simple, easy installation.

- Adjustable springs
- Perfect access to the inside of the cabinet
- No concealed hinges in the top panel
- Two-in-one solution with both hinging and support functions
- 32 mm hole spacing system
- White epoxy finish
- Excellent running properties thanks to maintenance-free plastic bearings
- Height adjustment with oblong holes

542R30 = Right position

542L30 = Left position
