

## Vertical Concealed Standard for Decorative Paneling

**Product #** 62NB028862G

### DESCRIPTION

Designed so the profile is completely recessed onto the wall and only the decorative panel is visible, which makes the panel appear to float.

Minimalist design creating a decorative panel which appears to be completely frameless.

- The invisible and economical profile that speeds up paneling
- Fast assembly for removable wall paneling
- For any kind of panel and thickness

### ADVANTAGES AND BENEFITS

- Cost savings on work execution: no tooling on panels - Assembly 4 times faster than other paneling systems
