

Silo Sliding Door System

Product # 8916604170

DESCRIPTION

Strap mount with solid running rail for wood doors

The Silo strap mount sliding door hardware provides a functional, versatile and secure sliding door solution with a chic look!

The rail connector inserts just over an inch into the solid running rail rod ensuring stability and allowing for a virtually seamless sliding operation.

A sure-fire easy installation with fixation points pre-drilled in the running rail for 16" centers.

As opposed to being mounted on brackets, the system is affixed directly to the wall through the running rail with the combination of spacing sleeves and our lift-locking pin. It therefore eliminates the risk of your door shifting or coming off the track, rendering your space safe for all.

ADVANTAGES AND BENEFITS

- Pre-drilled running rails for 16" centers. - Full rod and connectors ensure added stability.

Requires the following products

Sales unit

Fastener Screw Set for Barn Door Systems Product # 89M6X120A170 Page 1 of 3

Bag of 8 units

TECHNICAL SPECIFICATIONS

	I
Product #	8916604170
Door Material	Wood
Track Mounting	Wall Mount

APPLICATION

Hotel room, bedroom, office.

IMPORTANT INFORMATION

With custom spacing sleeves 11 mm to 32 mm long, your door can be mounted at various distances from the wall to allow enough space for framing, moldings, etc. Designed for wood doors, weighing up to 176 lb. (80 kg) when installed in the position closest to the wall. The use of a laser level or a minimum 4' spirit level is recommended. - Pictures provided for visual reference only: actual product may vary. - All required hardware should be ordered and obtained prior to initiating fabrication or installation work. Please verify that the parts and quantities listed in your order are correct before proceeding to checkout. - Always use instructions provided by the manufacturer, as included with the product. Manufacturer reserves the right to amend, modify, or otherwise supplement any previously issued product and/or technical information, as deemed required from time to time, without prior notice. - The documentation, drawings, and instructions on this page apply to the system described on this page only. Richelieu expressly declines all responsibility for any design or construction that combines this system with systems from this same manufacturer or systems from other manufacturers. - Installation of the product shall be executed by qualified individuals only, always ensuring that each product is securely installed using proper fixation methods, as appropriate for each applicable substratum. We trust that anyone installing these products has the required skills, knowledge, and experience. Richelieu expressly disclaims any liabilities for results obtained through improper use or installation. - Always remove debris/dust/residues (sawdust and/or aluminum) from all tracks and guide channels using a dry cloth during installation and before operating the system. - Never spray lubricant.
