

## Jig System for Handles, Knobs and Case

**Product #** 9125BASICJIG

### DESCRIPTION

#### Install hardware 10 times faster

For professional installation of handles and knobs, ideal for doors and drawer fronts. An invaluable tool for any cabinet installer. Simply slide aluminum guides and stop along imperial and metric rulers, tighten thumb screws and drill. Reversible design allows for minimal setup and quick drilling with perfect symmetry every time. Durable lightweight aluminum with case hardened steel bushings. Patented design helps prevent drill errors.

- Constructed in durable lightweight aluminum with case-hardened steel bushings
- Saves wasted time making handle templates
- 5 mm case hardened steel bushings are replaceable
- Style and rail minimum width: 1/2"

Bushings have a lifetime warranty.

### ADVANTAGES AND BENEFITS

- The fastest, most accurate hardware tool on the market; easily saves 70% plus in installation time.
- Patented design helps eliminate drilling mistakes.
- Reversible design allows for minimal setup and quick drilling with perfect symmetry every time.
