Iridium Grip-On Sanding Sheets

Product # A2435M120

Grit 120

DESCRIPTION

Mirka iridium sanding discs feature top performing abrasives produced with state-of-the-art technology with consistent grain distribution for a perfect finish, every time. The iridium discs also include a new resin system with enhanced grain adhesion. Precision coating helps repel dust, and optimized multi-hole patterns ensure that dust ends up where it belongs-in the dust bag.

ADVANTAGES AND BENEFITS

Ideal choice for body shops and industrial finishing applications. Initial cut is more aggressive and lasts longer. No loading/pilling with precision "non-stick" coating. Optimized grains with unique blend of ceramic and aluminum oxide for a consistent scratch pattern. No alignment of the discs required. Flexible backing with excellent grain adhesion and no loss of grain, even when folded. Great dust extraction results in clean working area. Very high health and safety awareness, energy and material efficient, and uses low VOC resin systems. 3 in (76.2 mm) x 5 in (127 mm)

TECHNICAL SPECIFICATIONS

Product #	A2435M120
Application Surface	Wood
Brand	Mirka
Width	3 in
Abrasive Material	Ceramic Aluminum Oxide Blend
Length	5 in
Color	Gray

APPLICATION

Automotive refinishing Wood processing Metal processing Marine industry Vehicles manufacturing
