

Inset Hinge, 110°

Product # BP871151521

DESCRIPTION

Hinge with integrated damper

Integra is a latest-generation damped hinge with damping integrated into the arm. Discreet and very efficient, this technology allows slow and controlled closing of your door.

Integra hinges are state-of-the art solutions with specially developed damping pistons to ensure a strong damping effect without rebounding.

ADVANTAGES AND BENEFITS

- All popular hinge models available - Standard drilling depth allows use with door thicknesses from 16 mm and up - Integra-series mounting plate with a curved bed for the damper space - Double body mounting plate, one-step adjustment in all three directions - Low-profile arm

TECHNICAL SPECIFICATIONS

Product #	BP871151521
Closing Mechanism	Soft-Closing
Screw/Nail	Wood Screw (Included)
Fixing Type	Screw-On
Use Type	Standard Door
Door Position	Inset
Brand	FGV
Included Products	2 Mounting Plates, 2 Hinges
Hinge Opening Angle	+110°
