

12 V Max Lithium-Ion Battery and Charger

Product # BSSKC120102

DESCRIPTION

Specializing in the most lightweight and compact tools, Bosch 12 V Max tools are designed for easy use while still packing enough power for the job. To guard against overheating, overload and unnecessary discharge, the Bosch 12 V Lithium-Ion batteries include electronic cell protection (ECP); increasing the life of the battery and tool.

ADVANTAGES AND BENEFITS

- Provides innovative professional power tools that meet the highest standards in speed, precision and durability which allow the user to achieve great work results.
- High capacity Lithium-Ion batteries run up to 50% longer than previous generation nutsetters
- Performs in temperatures as low as 4 °F
- High performance charger
- For use with Bosch 12 V Max tools
- Bosch 12 V Max tools come with the PROVANTAGE three-year protection plan, which guarantees two years of battery protection and one year of tool protection. Under this plan, you can receive two years of free battery replacements, tool replacement for one year and a free tool repair package for the second and third years.

REQUIRED PRODUCTS

Requires the following products

Sales unit

12 V Max EC Brushless Planer Kit

Product # BSGHO12V08N

AND

12 V Max EC Brushless Palm Edge Router Kit

Product # BSGKF12V25N

TECHNICAL SPECIFICATIONS

Product #	BSSKC120102
Voltage Type	12 V
Brand	Bosch
Weight	0.16 oz*
Length	9/16 in*
