CPR-Compliant Gravity Gun

Product # CACPRGWPPS

DESCRIPTION

The CPR (C.A.T. pressure reduced) spray gun from C.A.T. combines the transfer efficiency of HVLP (High Volume, Low Pressure) with the speed and finish quality of conventional air spray. The nozzle requires 11 cfm at a recommended inlet pressure of 29 PSI. The CPR guns are available in both pressure and gravity versions and include the new CPR air cap and the HVLP air cap along with 3 different needle and nozzle sizes (1.0 mm, 1.3 mm, and 1.7 mm), multi-purpose wrench, nozzle wrench, cleaning brush, mini regulator, and plastic case. These kits are also available with standard pressure and gravity cups or the popular 3M PPS (Paint Preparation System).

TECHNICAL SPECIFICATIONS

Product #	CACPRGWPPS
Type	Gravity, Fine Finish
Transfer Type	HVLP
Using Glue	Waterborne, Solventborne
Brand	C.A.Technologies

INCLUDED PRODUCT(S)

- 1 CPR air cap - 1 HVLP air cap - 3 needle and nozzle sizes (1.0 mm, 1.3 mm, and 1.7 mm) - 1 multi-purpose wrench - 1 nozzle wrench
