

Drilling Jig for Cabinet and Drawer Handles

Product # CON35000

DESCRIPTION

Drilling jig for installing pulls and knobs on cabinet doors and drawer fronts. This practical and handy tool also aligns the holes for the decorative hardware.

ADVANTAGES AND BENEFITS

- Scales are available in both metric and inches.
- Installs handles as long as 24" centers.
- A V-notch, in the fence, is used for installing handles at a 45° angle.
- Center reference line for extra wide drawer fronts.
- Movable positioning stop for use on drawer fronts of the same size.
