

CS Door Collection Sets

Product # DKO8201C

Load Capacity Max. 200 lb

Number of Doors 2

Door Thickness 1 3/8 in

DESCRIPTION

For telescopic and stacked doors

The CS Door Collection carriage and pick-up extrusion sets are designed for two or three telescopic and stacked sliding wood doors weighing up to 200 lb (90 kg) or 500 lb (227 kg) each.

Features:

- A CarriSnap mounting suspension plate for the top of the door for mounting and releasing the upper trolley without tools
- Sets for 1-3/8 in (35 mm) or 1-3/4 in (45 mm) thick doors
- Sturdy vertical pick-up extrusions for smooth and secure movement (sold separately for non-KITS)
- Large wheel trolleys with precision ground bearings for smooth running
- No bottom guide channel required for door widths under 48 in (1219 mm)
- Simple, flexible and low-cost installation

IMPORTANT: Hardware carriage sets are sold separately from vertical pick-up profiles. Order KITS if you need the hardware set complete in one box.

ADVANTAGES AND BENEFITS

- CarriSnap mounting suspension plate for the top of the door for mounting and releasing the upper trolley without tools
- Sturdy vertical pick-up extrusions for smooth and secure movement
- No bottom guide channel required for door widths under 48 in (1.2 m)

TECHNICAL SPECIFICATIONS

Product #	DKO8201C

IMPORTANT INFORMATION

IMPORTANT: Hardware carriage sets are sold separately from vertical pick-up profiles. Please make sure to read the entirety of the installation manual before proceeding with the installation. A groove is required for the bottom of the door for the floor guide, see instructions. Always remove debris/dust/residue (sawdust and/or aluminum) from all tracks and guide channels using a dry cloth during installation and before operating the system. Never spray lubricant on this product.

DISCLAIMER

Please make sure to read the entirety of the installation manual before proceeding with the installation. A groove is required for the bottom of the door for the floor guide, see instructions. Wear safety gear such as gloves, safety glasses, safety shoes, and ear protection. See the instructions for rough opening and other dimensions. Do not exceed stated limitations and parameters. This will cause early wear and performance failure, and will void the warranty. - Pictures provided for visual reference only: actual product may vary. - All required hardware should be ordered and obtained prior to initiating fabrication or installation work. Please verify that the parts and quantities listed in your order are correct before proceeding to checkout. - Always use instructions provided by the manufacturer, as included with the product. Manufacturer reserves the right to amend, modify, or otherwise supplement any previously issued product and/or technical information, as deemed required from time to time, without prior notice. - The documentation, drawings, and instructions on this page apply to the system described on this page only. Richelieu expressly declines all responsibility for any design or construction that combines this system with systems from this same manufacturer or systems from other manufacturers. - Installation of the product shall be executed by qualified individuals only, always ensuring that each product is securely installed using proper fixation methods, as appropriate for each applicable substratum. We trust that anyone installing these products has the required skills, knowledge, and experience. Richelieu expressly disclaims any liabilities for results obtained through improper use or installation. - Always remove debris/dust/residues (sawdust and/or aluminum) from all tracks and guide channels using a dry cloth during installation and before operating the system. - Never spray lubricant on this product.
