

Wood Screw, Flat Head with Nibs, Quadrex Drive, Coarse Thread, Double Cut Point

Product # FQCN172Z82PR

Screw Size 8

Length 2 in

Finish Zinc

Head Size no. 8

Packaging format Box of 4000

DESCRIPTION

Low Driving Torque & No-split Hardwood Screw

Recommended for general use in all types of wood, plywood, and particleboards. Thread design and double cut point help eliminate splitting and allow for lower driving torque for reduced operator stress. Countersinking nibs under the flat head remove material for a clean finish.

ADVANTAGES AND BENEFITS

Double Cut Point: - Immediately grips the wood surface for a quick start, cutting the wood fiber and driving in easily - Low driving torque eliminates wood splits, saves effort, and reduces fatigue stress on the hands - Durable: can be screwed into and out of hard wood many times without snapping - Sufficient and safe holding power - Cutters can penetrate hard woods easily without a pilot hole

TECHNICAL SPECIFICATIONS

Product #	FQCN172Z82PR
Head Type	Flat Head with Nibs
Drive required	Quadrex
Thread Type	Coarse Thread
Point Type	Double Cut Point
Function	Assembly
Brand	Reliable
Drive Size	#2 (Red)
Threading	Partial thread
Material	Steel
Thread Count (Pitch/TPI)	9
