

Dust Extractor Handle for CT 15

Product # FS204310

DESCRIPTION

Easily transport your CT dust extractor to and from the jobsite or around the shop. Easily attaches to rear of CT. Especially well-suited when using the CT to transport systainers latched to the integrated SysDock. Includes integrated nozzle and tube storage. Includes all hardware necessary to be mounted. Compatible with CT 15, CT MINI I, and CT MIDI.

ADVANTAGES AND BENEFITS

- Facilitates transportation of the CT 15, CT MINI, and CT MIDI mobile dust extractors - Handle is extendable and can be collapsed when not in use for more compact storage
- Made of steel and aluminum pipes - Practical holder for storing cleaning accessories (hand tube, three extension pipes, and floor nozzle)
