

Integra Dispenser

Product # INTGDISP250

DESCRIPTION

Our 250ml Dispensing gun was designed to raise the bar for the industry when it came to dispensing options for 10:1 guns.

We designed the dispenser to be universal to make it easier for those those transitioning to the Integra system, or who use multiple systems, or those who use other 10:1 adhesives, but simply want a quality dispenser.

ADVANTAGES AND BENEFITS

- Compatible with Mixpac 250ml cartridges systems used by many other adhesive brands
- Non-Drip Mechanism releases pressure between trigger actions
- 18:1 mechanical advantage reduces operator fatigue
- Sturdy steel frame doesn't flex or bend during use
- Steel push rods braced with reinforced plate to prevent off-ratio mixing
- Black powder-coated finish increases durability
- Rubber dipped handle increases grip and comfort
- Extremely durable and easy to maintain
- Wear compensation screw increases product life
