

## StealthLock System

**Product #** LOCSL100

### DESCRIPTION

An innovative keyless cabinet lock operated by radio frequency technology.

### ADVANTAGES AND BENEFITS

- Keyless cabinet locking system using radio frequency technology
- Transmitter pad operates within a 15 ft. range
- One transmitter pad can activate an unlimited number of receiver latches
- Separate user and supervisor codes (four to eight digits) to operate the lock(s)
- User programmable with optional modes of operation for single use or self lock
- Receiver latch is easily programmed by user through the transmitter pad
- Receiver latch mounts within 1/2" drawer suspension clearance
- Uses readily available batteries: 4-AAA (not included) for the receiver latch and a CR2032 coin battery (included) for the transmitter pad
- Low battery indicator on transmitter pad
- Works with wood, phenolic resin and glass material
- For interior use only
- recommended temperature range of 50°F to 120°F
