

Wiping Wood Stains

Product # M54510007

Volume 1 gal.

Color Honey

Packaging format Per unit

DESCRIPTION

Semi-transparent, pigmented, solvent-based stain. Non-grain raising and fade-resistant. Easy-to-stir, soft-settling formula. Only 30 minutes of drying time are needed before a lacquer sealer coat can be sprayed. Apply by spray, brush, or cloth. Pigmented Wiping Stains are easier to control because there's no lapping. This is an ideal uniforming stain when applied over dye stains prior to sealing, and will never bleed through the finish. Open work time can be increased by adding Wood Stain Retarder. Virtually any finish can be applied over Wiping Wood Stain: lacquer, shellac, varnish, polyurethane, acrylics, and many others.
