

Bleachtone

Product # M5502027

DESCRIPTION

Bleachtone is a unique product used to create the popular pickle-frost look. This product allows end users to achieve a transparent layer of color on maple that does not block out the grain. White in color, but can be tinted with colorants to create custom colors. Bleachtone can be sprayed directly onto the wood or added (no more than 40%) to E-Z Vinyl Sealer for improved color control. Bleachtone should be sprayed at approximately 30 psi and applied in multiple coats, similar to an Ultra Penetrating Stain, to achieve the desired color. Glaze can be applied over Bleachtone to achieve a variety of popular looks.

TECHNICAL SPECIFICATIONS

Product #	M5502027
Volume	1 gal.
Category	Stains and Dyes
Color	White
Brand	Mohawk
