

Liquid Epoxy Glue

Product # M7452016

DESCRIPTION

This product retains all of the physical strengths of epoxy adhesives while offering the added advantage of quick setting, even in thin films and at low temperatures. Can bond steel, ceramics, copper, wood, and nearly all other types of materials including concrete. This product is non-shrinking and will even harden under water. 12-hour cure is ideal for areas where excessive stress and strain are factors (e.g. furniture legs). Two-part formula mixes 1 to 1.

TECHNICAL SPECIFICATIONS

Product #	M7452016
Volume	16 oz
Brand	Mohawk
Specifications	Work Time 3 to 5 Minutes
