

## Putty

**Product #** MSA231

**Finish** Italian White

## DESCRIPTION

Fill joints and drill holes with putty.

This is a single-component sealant made from a mixture of synthetic resin dispersions.

You can cover approximately 2-3 panels with a single tube.

## TECHNICAL SPECIFICATIONS

<b>Product #</b>	MSA231
<b>Volume</b>	10.5 oz*

### Disclaimer

Measures shown with an asterisk (\*) have been converted as per your preference. These are not the official measures. To view the measures specified by the manufacturer, [click here](#).

## APPLICATION

Product is designed specifically to seal the joints of our panels. Surfaces must be clean and free of grease. Paint can be applied approximately 3 hours after application, depending on the environmental conditions.

## IMPORTANT INFORMATION

Can be stored for 18 months in the original, unopened package. Store at a temperature between 5 and 30 °C.
