

Meganite Sheet - Crater Lake M602

Product # MSSM6021230

DESCRIPTION

The Movement series transcends time and place.

Earthy mud-colored, sandy veins and scattered sparkled shells are set swirling across a rich, earthy grey base for striking dimension and depth that lies inside a volcanic basin.

ADVANTAGES AND BENEFITS

The MEGANITE® solid surface is homogenous. It's the same color and the same material throughout. That's why repairing scratches is so easy and why the surface will continue to look like new.
