

## Constellation - Andromeda

**Product #** N14COADRGV44

### DESCRIPTION

#### Acoustical baffle system

The design of this baffle system consists of chevron, which is a decorative motif in the shape of a V, or as we usually call it, the zigzag. It is a very interesting decorative line if you want to have a creative and unique interior design.

The zigzag design will be beautiful wherever you decide to hang it. This decorative pattern may seem a bit odd at first, but if you are looking for originality, this gives you a unique design.

### ADVANTAGES AND BENEFITS

**THE ACOUSTIC PERFORMANCES** The irregular cavities of the Andromeda ceiling baffle system are more damping compared to the regular geometric cavities. The dissipation of acoustic energy from irregular cavities is not only due to its shape, but also to the properties of our Düotex felt (porosity, resistivity, etc.) Made of 100% polyester, with up to 50% recycled PET fibers depending on the color. **FIRE RESISTANCE** | ASTM-E84, CLASS A

### TECHNICAL SPECIFICATIONS

<b>Product #</b>	N14COADRGV44
<b>Length</b>	48 in
<b>Width</b>	48 in
<b>Collection</b>	Constellation
<b>Color Name</b>	Gray Fermont, Green Ste-Marie
<b>Weight</b>	4.5 lb
<b>Felt coverage in (ft2)</b>	20.02 ft
<b>Area in (ft2)</b>	16 ft

### IMPORTANT INFORMATION

Recommended ceiling heights should be higher than 10 ft (3.048 m).
