

Exterior Through-Bolt Mounting Plates

Product # OLETS112526D

DESCRIPTION

Our through-bolt trim spacers provide added security and flexibility to our line of door and drawer cabinet locks. These items can be used in combination or separately to achieve a variety of configurations. The through-bolt mounting feature provides increased security in particleboard applications.

ADVANTAGES AND BENEFITS

- Attractive mounting: External metal through-bolt plate allows for flush mounting of the cabinet lock face with face of cabinet. - Increases security: Reinforces the cabinet face by direct connection of lock mounting screws to through-bolt plate's binder posts.
