APPLICATION

Installs glass-to-wall -Not for use on pool gates. They are not designed to meet swimming pool regulations or codes which require a force closing hinge with at least five pounds of closing force.

IMPORTANT INFORMATION

For safety purposes, use tempered glass. The use of power tools during installation may damage hinges and decorative hardware. The glass must be shaped according to the instructions provided in the box. Always set the product in a suitable material. Never exceed the load or maximum size recommended by the manufacturer. Maintenance: clean with a soft cloth and non-abrasive soap or ammonia. This illustration is provided for visual reference only. Actual product may differ from the illustration. Order hardware before starting the job. Always use the instructions inside the package since the manufacturer reserves the right to change product and information without notice. Drawings and technical documents contain examples of hardware from different manufacturers. The customer may in no case make a claim following the use of these documents. The Company disclaims any responsibility for the structural details related to a construction or project. These are self-centering hinges that center with the downward force of gravity and swing both ways. They are not designed to meet swimming pool regulations or codes which require a force closing hinge with at least five pounds of closing force. Installation must be done by qualified personnel.
