

Spray Paint

Product # PTX10400

DESCRIPTION

An excellent waterbased PU enamel with very fast drying characteristics producing high quality finishes (2.5 m² / 400 ml aerosol can).

For every 400 ml aerosol you can cover approximately 12 panels.

Instructions for use:

- Before use, shake well for one minute after hearing the sound of mixer.
- Apply over clean and dry surfaces.
- Apply in thin coats to achieve best results (three thin coats are better than one thick coat). Reapply after 30 minutes.

ADVANTAGES AND BENEFITS

- Fast drying - Excellent opacity - Good durability of color - Low VOC content and odor - Easy to apply and recoat

TECHNICAL SPECIFICATIONS
