

Classic Wooden Pegs - 320

Product # RH320300503

DESCRIPTION

You can replace old or damaged wooden pegs with this perfect solution. These easy-to-install pegs will restore your hook board and make it brand new again.

TECHNICAL SPECIFICATIONS

Product #	RH320300503
Hook Style	Classic
Finish	Natural
Material	Wood
Load Capacity	1.1 lb*
Diameter - Overall Dimensions	3/4 in*
Milling Diameter - Overall Dimensions	3/8 in*
Screw/Nail	Not Included
Hook Model	Simple Hook
Color Group	Wood Group
Finish Number	15
Suggested Price	From \$10.00 to \$15.00
Projection - Overall Dimensions	2 3/4 in*

Disclaimer

Measures shown with an asterisk (*) have been converted as per your preference. These are not the official measures. To view the measures specified by the manufacturer, [click here](#).

IMPORTANT INFORMATION

The installation of wooden dowels requires a 3/8 in (9.5 mm) hole diameter by 1/2 in (12.7 mm) deep. Although the peg is usually tight enough, we recommend using a little wood glue to reinforce the connection. If necessary, use a hardwood plank as the base.

APPLICATION

For maximum loading capacity, hooks should be mounted directly to wall studs, which are generally found at 16 in intervals. If hooks are not mounted to studs, use appropriate dry-wall anchors (not included with hooks). Hooks come with plastic anchors that may not adhere to all type of walls. The installer is responsible for ensuring that appropriate anchors are used.
