Projection - Overall Dimensions	1 3/8 in*

Disclaimer

Measures shown with an asterisk (*) have been converted as per your preference. These are not the official measures. To view the measures specified by the manufacturer, [click here](#).

APPLICATION

For maximum loading capacity, hooks should be mounted directly to wall studs, usually found at 16" intervals. If hooks will not be mounted to studs, use appropriate dry-wall anchors (not included with hooks). Hooks come with plastic anchors that might not be appropriate for all types of walls. It is the installer's responsibility to ensure the use proper anchors.

DISCLAIMER

Although our black finish is achieved by means of a rigorous process, it may show signs of normal wear faster than other finishes.
