

Door Panel Spacer

Product # SBLS50K

Packaging format Bag of 50000 units

DESCRIPTION

8 - 10 spacers are recommended per door.
Spacer should fit snugly, but not tightly, by compressing one-third the diameter of the ball.

ADVANTAGES AND BENEFITS

-Automatically centers panels in the assembling process. -Expands and contract as the panel does. -Eliminates panel rattle and helps to eliminate the cracking of glue joints. - Fits standard stile and rail cutters (1/4" groove).
