

#9241 Heavy Bird's Eye Maple - Evolution HD Veneer

Product # FI9241BJ0408RJ

DESCRIPTION

Evolution HD definition: Engineered wood products are composite wood products made from glued fiber, lumber, and/or veneer to meet specific design criteria. Knots, splits, checks and other naturally occurring wood-weakening characteristics are cut out, reducing the effect of these natural defects to a minimum. These manufacturing processes use less wood fiber to produce strong, specialized wood products.

Bulk packaging, 10 sheets per box.

Sold unvarnished.

ADVANTAGES AND BENEFITS

High definition: Very accurate reconstruction of the wood grain pattern Consistency: Minimal variations in patterns and colors, from one veneer to another Flexibility: Flexible product suitable for applications with small radius curves.
