Horizontal Wall Bed Unit with Spring Mechanism & Manual Ladder (Upper Section)

Product # XULT36WBHX

DESCRIPTION

Pull up the top of your wardrobe to reveal a wall bed with ladder, ready for use by young and old with a load capacity of 190 kg. Comes as a full steel structure with wooden slats, an automatically unfolding leg and a spring mechanism with an integrated locking system. This is the ideal wall bed mechanism for daily sleeping solution.

The bottom of the wardrobe can also accommodate a retractable bed mechanism (#XULT36WBHZ), allowing you to conveniently create a bunk bed.

ADVANTAGES AND BENEFITS

Maximize the space in a room. With a high load capacity, everyone can sleep safely, and the safety bar prevents a sleeper from falling out of the bed. Just one SKU for all the parts! The base includes 13 slats, each of which is made of 6 layers of birch, curved and glued under pressure to guarantee the best possible support. The mattress bracket ensures that its position will be held, and the lowering mechanism features a safety lock so that the open position will be secure. The ladder folds and retracts easily.
