

TIP ON long version for doors

Finish

DESCRIPTION

For doors of 500 mm (19 11/16") or more

Furniture can be opened with a light touch thanks to the TIP-ON mechanical opening support system. The furniture can be closed again by simply pressing the front.

With regards to the extended ejector with pre-set positions, when assembly is complete the door gap can adjusted easily, without tools. The new adapter plate range comprises long and short adapter plates.

ADVANTAGES AND BENEFITS

- TIP-ON long version with magnet - For overlay doors starting at approximately 1300 mm height or inset doors - For drilling diameter 10 x 76 mm - Material: nylon - Output path approximately 38 mm
