### Cylinder Length

1 1/4 in

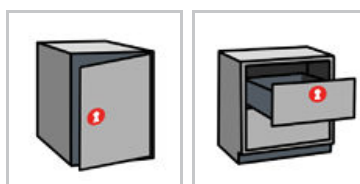

1 3/8 in

### Panel Thickness

Max. 1 1/4 in

Max. 1 3/8 in

### Application

## DESCRIPTION

### Interchangeable Core

Cabinet locks: Suitable for Olympus 721DR (door) and Olympus 721DW (drawer) such as manufactured by Olympus Lock, Inc. Locks can accept 6- or 7-pin small format interchangeable core cylinders. All locks are field reversible and provide dedicated door and drawer functions in order to maintain keyway verticality when installed. Includes strikes and spacers as required for flush fit with outside face of casework material. Locks have disassembly/reassembly features to facilitate on-the-job maintenance.

## ADVANTAGES AND BENEFITS

- Lock OL721DR (door)/OL721DW (drawer) deadbolt locks have a 3/4" bolt throw, providing a higher level of security for cabinet doors and drawers - This lock installs with four mounting holes in two barrel length sizes: 1-1/4" and 1-3/8" - The longer barrel is for cabinetry with thicker construction - Standard locks are non-handed - Optional key-retaining functions are available and field reversible
