

Low Aluminum Profile with Lens

Finish

DESCRIPTION

Made in North America

This extremely low profile of only 0.236"/6 mm thick is compatible with most of our LED strips. Perfect for tight spots, ideal for when you are looking for discreet surface mounting lighting solution. Aluminum profile solutions are in great demand as they allows our customers the ability to customize their designs for their customers like never before.

ADVANTAGES AND BENEFITS

Richelieu's new SURFACE mounted profile solution fits tape light and tape light rolls. Included opal lens creates the no dot effect and gives a uniform look to the added lighting with no hot spots. Designed to meet North American woodworking standards. Customize your lengths as needed. Profiles can be cut easily with a miter saw. Slim design.

IMPORTANT INFORMATION

- 8 ft (2.44 m) long aluminum profile with opal lens - 3/4 in (18.7 mm) width - 1/4 in (6 mm) height - 19/32 in (14.5 mm) interior width dimension Opal lens was specifically chosen to offer a nice level of light to light up cabinets without the dot effect. The denser the lens, the less light that can pass through. For example, a clear lens will offer 96.5% translucency with only 20% diffusion (clear, meaning the lens is clean and the tape light is visible). The opal lens offers 65% translucency with 100% diffusion. Opal lens efficacy is 50% of the originally emitted light source.

INCLUDED PRODUCT(S)

- Includes the opal lens cover

APPLICATION

- Kitchen - Displays - Hotel accent lighting - Under shelf - Cove lighting

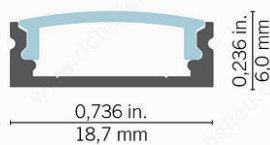

DISCLAIMER

LED tape light sold separately. You have many options to choose from. Please visit the lighting section at www.richelieu.com You will need to purchase an additional switch for your tape light to function; depending on which tape light you use, there are different options available. Please visit the lighting section at Richelieu.com for suggestions. As tape light widths and connectors can vary, please be sure that you have chosen the correct tape to fit your profile to achieve the right look for your design.
